## MARYVILLE GETS ORATORY AWARDS

LOCAL HIGH SCHOOL DEFEATS SKIDMORE AND HOPKINS.

## JUDGES UNANIMOUS FOR GIRL WINNER

All Favored Mary Lewis on Washington Declaration—Get Medals and Loving Cups.

The Maryville high school took all honors in the annual Washington-Lincoln oratorical contest, which was held in the Washington school building last night. Philip Colbert was the only boy contestant with a declamation on the life of Lincoln, so naturally secured that loving cup for his school, but the grading of the judges showed that even had he a dozen contestants they would have had to "go some" to get around his percentage.

Miss Mary Lewis won out over two competitors in the declamation on the life of Washington. In fact, the three judges unanimously favored Miss Lewis, as the grading showed. The addresses by Miss Ica Applegate of Hopkins and by Miss Mary Barrett of Skidmore were good, however, and received the hearty applause and commendation of the entire audience and the judges.

### May Hurt Next Contest.

While it is commendable that the local high school won both prizes in the oratorical contest, many of those most interested in the movement fear that this fact alone will deter the success of next year's contest, in that other county high schools will take it for granted that the Maryville school will win anyway, therefore not enter any contestants.

The judges of the declamations were Prof. Harry A. Miller of the Normal faculty, the Rev. John H. Hubbard and Mrs. R. S. Brantiger, all of Maryville. The announcement of the winners was made after the last declamation by Prof. Miller.

Each gave the Washington loving cup to Miss Lewis; in fact, Mr. Hubbard and Prof. Miller were but one-half point at variance in grading. The judges were selected a few days ago by a representative of the Grand Army of the Republic, of the Women's Relief Corps and by Bert Cooper, county school superintendent.

### Will Get Medals and Cups.

Each winner will receive a silver medal for personal possession, while the Maryville high school will receive the two loving cups.

The oratorical contest was interspersed with a musical program.

It opened with the entire audience singing "America." Invocation was given by the Rev. J. H. Hubbard, after which a male high school quartet, composed of Verne Pickens, Donald Roberts, Claude Glass and Jesse Strader, sang "The Backslidin' Brudder."

The address on Lincoln was then given by Philip Colbert.

The girls' chorus of the high school then sang "My Own United States."

The three addresses on Washington were then given by Miss Ica Applegate, Miss Mary Lewis and Miss Mary Barrett in order.

"Questions" was then sung by the Boys' Glee club of the school, after which the announcement of the winners was made.

### Colbert Oration Best Ever.

"The oration on Lincoln by Philip Colbert, from the point of diction, composition and arrangement, was the best high school oration I have ever heard," said Prof. Miller, one of the judges, and himself an authority on this kind of work. "I graded him perfectly on thoroughness of preparation, diction and composition, and all in all I believe his declamation was the best delivered at the high school last night."

The orators were graded as follows, according to Prof. Miller. Each of these qualities constituted ten points: Thoroughness of preparation, composition, diction, memory, modulation, gesture, pronunciation, enunciation.

## WHEN FERRIES WERE USED

Old County Records Recall When Oxen Crossed the Unbridged Nodaway.

The granting of a contract Saturday for the erection of a new steel bridge over the Nodaway river at Clearmont recalls the time when ferries alone offered a means of crossing that stream. It in turn brings to the mind of the older settler when oxen were seen as often as the horse, and when automobiles were not even dreamed of.

In looking over the records of the Nodaway county court in 1868, County Clerk Fred Yeomans saw an interesting item yesterday in which the court granted a license to John S. Swoop to run a ferry on the Nodaway river near Graham, the license being for a period of three months, from March 3 to June 3, in 1868.

The charges were 10 cents for footmen, 50 cents for a wagon and team of four horses or four yoke of oxen, 35 cents for a wagon and a team of horses or oxen.

Joseph Jackson, Sr., president of the First National bank of this city, was county clerk at the time and Andrew Royal was president of the court.

### CLASS STUDIES ELECTRICITY.

Normal Students in Physics View Local Light Plant to Get Practical Knowledge.

The college physics class of the Normal school, taught by M. W. Wilson, made a trip to the power plant of the Maryville Electric Light and Power company this morning for the purpose of becoming more closely acquainted with the practical side of electricity. The class consists of Silas Skelton, Ray McPherron, Orlo Quinn and W. A. Powers.

### ATTEND MAIL CARRIERS' MEET.

District Officers Went to St. Joseph—Maryville Man is Convention Delegate.

The semi-annual meeting of the rural mail carriers of the Fourth congressional district of Missouri, was held yesterday in St. Joseph. No one was in attendance from Maryville, but S. S. Browne of Hopkins, and O. G. Null of Pickering, were present from Nodaway county.

The carriers will hold their next meeting on Labor Day at Savannah. James S. Muntz of Maryville was selected as one of the delegates to the state convention to be held at Marshall July 2 and 3. S. S. Browne of Hopkins is president and O. G. Null of Pickering, is secretary of the association.

### OBSERVE WASHINGTON DAY.

Normal Y. M. and Y. W. Associations Hold Joint Assembly Session This Morning.

The Y. M. C. A. and the Y. W. C. A. of the State Normal school met in joint session at the regular assembly this morning. The subject of the meeting was George Washington. Besides the regular numbers on the program a round table discussion was held in which many participated. Prof. Harry Miller made a particularly interesting talk. The program follows:

Leader—Miss Ivah Barnes.  
Subject—"George Washington."  
Song—Both associations.  
Scripture reading.  
Prayer—William Utter.  
Vocal solo—Miss Blanche Criswell.  
"Washington, the Man of Character"—Miss Mahala Saville.  
"Washington, the Man of Peace"—Miss Barbara Millan.  
"Reverential Spirit of Washington"—Harvey Watson.  
Quartet from Y. M. C. A.

Frank Flynn of Kansas City spent the week end with friends in Maryville, returning to his home yesterday.

## STORM DAMAGES TELEPHONE LINES

WIND AND SNOW BREAK WIRES AND DOWN POLES.

## SERVICE VIRTUALLY CUT OFF IN COUNTY

Mutual Has Communication Only With Arkoe, While Hanamo Suffers Biggest Loss for Year.

One of the biggest losses through storm which either the Hanamo or the Mutual telephone companies have suffered within the last two years, is reported by officials of both concerns this morning, as a result of last night's storm. The wind, sleet and snow combined, broke scores of wires, dragged the poles from their anchorage and in general, played havoc with telephone communication over all of Nodaway county.

W. O. Garrett, of the Mutual telephone company, said this morning, that no towns within the county but Arkoe, could be reached today over the Mutual lines, and that many of the individual and party farmer lines are down or out of commission. One of the main lead lines northwest of Maryville, is down on the ground for a full half-mile, Mr. Garrett said, while in numerous places the force of linemen, sent out this morning report much damage.

### Mutual Loss is \$200.

"The storm last night did at least \$200 damage to the Mutual lines," said Mr. Garrett this morning. "It did more damage by far than any other storm this winter, or for that matter, for at least two years past. It will probably be several days before even all the lead lines to the various towns of the county will be in repair, although some may be in commission by tomorrow night."

"The linemen have been instructed to first repair the lines nearest to Maryville and then work out on the various main lines, so that some of the towns may be put on the service earlier than others in this way."

The telegraph wires into Maryville were damaged but little, if any, by last night's storm, according to W. J. Staples, local manager of the Western Union Telegraph company.

### Hanamo Service Crippled.

"We have not had much trouble from the storm last night in Maryville, but the toll lines have been badly damaged by the snow, sleet and wind," said Harry Todd, manager of the Hanamo Telephone company, this afternoon. "We had but three toll lines working this morning, they being to St. Joseph, Barnard and Stanberry, but the other lines are being rapidly repaired."

"We expect to have all town lines in working order by tonight, and probably all toll lines in usual condition by tomorrow night."

Mr. Todd said there were but a dozen or so complaints made from city subscribers, but that many of the country toll lines were damaged by wires being broken or the poles being dragged down by the weight of the snow and resulting wind.

Between Maryville and Carr's corner, five miles south of town, on the line to Arkoe, Mr. Todd said the linemen reported eight poles down, while other telephone lines have damaged the Hanamo wires to some extent by poles falling across them.

### A Corn Sermon.

Trying to pick your seed corn out of the crib in April without being able to know what sort of stalk produced each ear, and without being able to find out what sort of neighbors that each ear had, is like proposing to a girl without having seen her mother on wash day.

### To Visit in Kansas City.

Mrs. Hannah Garten, who has been spending some time with her son, E. H. Bannum, and family, left yesterday for Kansas City to visit her daughter, Mrs. Charles Himebaugh.

## NORMAL FUND CUT \$17,820 BY HOUSE

REVISED APPROPRIATION BILL INTRODUCED TODAY MAKES CUT.

## URGE \$10,000 MORE FOR SALARY THOUGH

Maryville State School Fares Better Than Others—Now Up to the Two Branches.

A further cut of \$17,820 in the appropriation sought by the Maryville State Normal school for the biennial period of 1915-1916 has been recommended by the house appropriation committee of the state legislature. The appropriation bill is to be introduced in the house today by Representative Floyd Tuggles, chairman.

The original appropriation sought by the board of regents and adopted by the junketing committee was \$170,520. It later was reduced by \$500, this being taken from the campus improvement fund. Later this same fund was reduced by \$1,000, making the total appropriation \$169,020. The appropriation of \$141,500, now recommended, is greater than that granted by the legislature two years ago by \$23,458.39.

The big cut this time is believed to have been made in the salary fund. The salary fund two years ago was \$90,000, while the house committee this time recommends an appropriation of \$10,000 more for this purpose. This would make the salary fund this time \$100,000 if it passes through the house and senate unchanged. The board of regents asked for \$118,820.

But the Maryville Normal has so far fared well, when it is considered that virtually all other state institutions, particularly the state university, was denied most appropriations for improvements or extensions. Whether the Normal appropriation will be further reduced in the house today or in the senate within the next few days is hard to foretell.

### MOTHER SUPERIOR RESTS WELL.

Condition of Injured Woman Fairly Good Today.

The condition of the Reverend Mother Augustine, Mother Superior of St. Francis hospital, who was seriously injured yesterday when her right arm was crushed in the mangle machine of the hospital laundry, was fairly good today. She rallied from the operation for the amputation of her arm and spent a restful night, and is as well today as the attending physicians could hope for.

### HOLDS BEAR RITES.

Daughter of Mr. and Mrs. William Cheney of Hopkins Dead.

The funeral services for Mrs. Charles Bear, living southwest of Arkoe, who died Sunday at the home of her parents, Mr. and Mrs. William Cheney of Hopkins, were held yesterday afternoon at the Christian church of Hopkins. Mrs. Bear had been ill for several weeks and was brought to her father's home Friday. She is survived by her husband and one child.

L. F. Palmer, Mrs. N. W. Walther and Miss Flora E. Regal of the Travelogue bureau of Chicago are here introducing the Burton Holmes Travelogue.

### Leaves for Iowa.

Mrs. Louise Jacoby of Canada, who has been the guest of Mr. and Mrs. W. W. Jones, left yesterday for a visit with relatives at Leon, Ia.

## RUSS TO ATTACK TURK CITY?

Sofia Reports Slavs Concentrate at Odessa for Bombardment of Constantinople.

By American Press.

Copenhagen, Feb. 23.—The Deutsche Tages Zeitung publishes an official dispatch from Sofia, which says the Russians are concentrating large forces at Odessa, in readiness to ship them to Midia, on the Black sea, sixty miles northwest of Constantinople, for an attack on that Turkish capital.

With the allies also making a determined attack on the Dardanelle forts at Constantinople with much success, it is believed the czar now plans to throw his forces to their aid and thereby render Turkey virtually helpless in the war.

## SAYS MOTIVE CHANGES WILL

Evangelist Will Preach Tonight from Topic "Is Conscience a Guide."

At the close of the preaching services last night at the First Christian church, a baptismal service was held and a number of converts received into membership. The Rev. Charles A. Finch, who is conducting the services, will preach tonight from the subject, "Is Conscience a Guide." Harry O. Fritz, who has charge of the musical part of the service, will give special numbers.

The evangelist spoke last night from the text, "A Change of Heart," saying in part:

### What Is the Heart?

"Every scripture that refers to the heart falls under one of the four classes namely; the intellect, affections, will and conscience. That is to say, the heart is said to 'reason,' to 'love,' to 'determine' or 'will,' and to 'condemn.' Therefore, the heart that is spoken of in the New Testament includes the entire inner being of man as Paul says, 'Though the outward man perish, the inner man is renewed day by day.' The heart then is everything of man except flesh and blood."

The intellect, the affections, the will and the conscience. If now, these four departments of the soul are against Christ and righteousness, and wholly given over to sin, a change of heart would be the making over of these faculties of the mind and soul so that they are devoted to Christ.

"We can believe only upon evidence, 'either produce it or give up.' So faith in Christ is produced the same way."

### Spirit Changed by Kindness.

"If I talk to a man in a spirit of anger, he will reply in the same manner, but when I try to be courteous, kind and considerate, swift to help with my money and my deeds, a different atmosphere is created. When we see in any object loveliness our affections go out toward it."

### Motives Change Will.

"A man leads a pure and virtuous life to the altar, vows to care for her, love and protect her while life shall last. He establishes a happy home, but in a few years strong drink ruins that home. Everything is gone. The wife and children are in rags. His intellect is alright for he still is aware that he has outraged the home and broken every promise he ever made. The affections do not need to be changed for in moments of sobriety he loves his wife and children but his will is so weak, the demon of drink is his master. What will change him? The same motives that changed the prodigal when he came to himself. The motive of the father's great love and his willingness to pardon. The gospel cure is greater than the Keeley cure. As long as Calvary's Hill shines thru the centuries and men hear, 'Father forgive them, they know not what they do,' a motive big enough to win men from sin and reclaim them from ruin is at hand."

### Right Doing Changes Conscience.

"Conscience is that inward monitor that chides us when we do wrong and cheers us when we do right. If you believe in Christ, your intellect is alright; if you love Him, your affections are what they should be; if you will to serve Him, that faculty is what He would have, and if you have obeyed Him your conscience is right and your heart doesn't need changing. Whatever is lacking should be changed. If your conscience tells you that you have not obeyed God, you will get a good conscience by obedience."

Mr. and Mrs. Ad Davis of Clearmont announce the birth of their daughter Saturday.

## TO ARRANGE FOR FALL CORN SHOW

OFFICERS WILL DISCUSS NEXT CONTEST FOR YOUTHS.

## WILL BE HELD AT NORMAL IN OCTOBER

Nodaway County Agricultural and Domestic Science Association Plans Seventh Annual Exhibit.

A special meeting of the officers and executive committee of the Nodaway County Agricultural and Domestic Science association will be held in the office of Bert Cooper, manager, at the court house at 9 o'clock Friday night, to arrange further details for the seventh annual show of the association. It will be held in October at the Normal, but little further is yet definitely decided except the list of prizes to be awarded this year.

W. M. Oakerson of Jefferson City, formerly manager of the association, will attend to aid in the promotion of the county contest for youths. It is hoped at this time that the exact time for holding the contest and exhibition may be decided upon, as well as the completion of other arrangements.

### May Hold It Separate.

Whether the show this year will be held separate and distinct, and at a different time from any other attraction is not known, but probably will be after the meeting Friday night, Manager Cooper said this morning.

It has been suggested that it be held in connection with the farm and home course of the Normal, or with the annual fall meeting of teachers of Nodaway county. But the consensus of opinion was last fall that hereafter the youths' contest should be held separate.

Last year it was held in connection with homecoming week. If the show this year is held in conjunction with the Normal short course it would either have to be held later than in October or else the Normal agriculture course would have to be held earlier than it was last year, when it was the first week in December.

### Send Out Entry Blanks Soon.

At any rate, according to Manager Cooper, it will not be held in connection with the Nodaway county fair, which is to be held the latter part of the summer.

Entry blanks for competing in any of the contests in agriculture, horticulture or domestic science at the next annual show will be sent out over the county within a few days, Mr. Cooper said, so that those desiring to compete can enlist early.

The officers of the association now are: Bert Cooper, manager; E. E. Williams, secretary and treasurer. The executive committee consists of Miss Hettie Anthony, Prof. John E. Cameron, James B. Robinson, G. L. Wilfley, Joseph Jackson, Jr., Paul Sisson, W. R. Jackson and the two officers.

### Oklahoma Visitors Arrive.

Mr. and Mrs. A. C. Vickery and son of Hitchcock, Okla., arrived in Arkoe yesterday to visit Mr. Vickery's parents, Mr. and Mrs. N. C. Vickery. They will later visit in Maryville with Mrs. Vickery's father, W. H. Swinford. The Vickerys have recently moved from Watonga, Okla., to Hitchcock, where Mr. Vickery has gone into the mercantile business.

### LEGISLATURE DOES LITTLE

State Assembly Passes But 4 Appropriation Bills, and Only 19 Days Remain.

With only nineteen working days to go the Missouri legislature has passed and the governor has signed four appropriation bills and nothing else. That is the total of accomplishments of the present session.

More than that, most of the big bills are so far down on the calendar that their chance of ever becoming laws is slim. The status of some of the big bills follow:

Workmen's compensation—up for engrossment in the senate; not out of the committee in the house.

Insurance—Fire marshal bill, practically killed in the house; fire rating bill up for engrossment in both house and senate, but with such a fight on the measure that even the backers admit passage is doubtful.

Election bill—Reported adversely by house committee; still in committee in senate.

State purchasing board bill—Killed by house and senate committees. Claimed by the governor the measure would save the state \$100,000 a year.

Prison farm bill—Big feature of prison program on calendar without a recommendation in senate; reported adversely by house committee.

Minimum wage commission bill—Still in committee in senate and generally recognized as standing no chance at passage.

Code revision—Civil code reform bill engrossed in the house, up for engrossment in the senate. Other code bills out of committee with favorable report. A possible chance of a few of these bills passing, but only a chance. The dry bills—One dry bill engrossed in the house; all the rest merely reported favorably by house committees. Not a bill out of committee in the senate.

#### To Fight Over Four Bills.

From the present indication, the remainder of the legislative session will develop largely into a fight over four measures—the dry bills, the railroad rate increase, the prison problem and the insurance rating bill.

The rates increase and the prison problem are standing out above the other bills; in fact, the drys, with an acknowledged majority, are in a hole where they may not get a bill by.

Never has a session seen so much debate and discussion on the floor of the house and senate. The railroad rate bill will not be up for a vote for a week and the work now is being done at home—trying to bring influence to bear on members to switch them to the bill.

The drys will make a fight in the houses Tuesday when the early closing bill comes up for engrossment. It was slated to be voted upon today, but on account of the many members absent it went over until Tuesday. The drys are in good shape in the house, but their bills are now here in the senate. The coming week will see the drys centering their fire on the senate in an effort to get action there.—Kansas City Star.

Frank Dinsmore and Grover Dinsmore of the Gaynor neighborhood were transacting business in Maryville yesterday.

C. W. Yehle, president of the Alderman-Yehle dry goods company, left Sunday night for a ten-day trip to the St. Louis and Chicago markets.

#### Returns to Fort Wayne.

Mrs. Edgar Schilder of Fort Wayne, Ind., who has been visiting several weeks with her parents, Mr. and Mrs. Frank Barmann, left for her home yesterday. She was accompanied as far as Kansas City by her brother, Earl Barmann.

Club ladies, teachers, parents and all lovers of art, literature and travel, examine the Burton Holmes Travelogue now being introduced here. This work contains the finest collection of pictures and the most interesting and profitable description of the world ever published.—Adv.

### MARYVILLE GETS ORATORY AWARDS

(Continued from page 1.)  
tion, vocal energy, personal appearance.

#### Where They Fell Down.

The three girl contestants were graded as follows by Prof. Miller:

Miss Lewis 80, Miss Applegate 73, Miss Barrett 71. Mr. Hubbard, another judge, gave Miss Lewis 79½ points, while Mrs. Braniger, the other judge, gave her 84 points. Miss Lewis' main weakness, according to Prof. Miller, was in pronunciation and gesture.

Miss Barrett fell principally on the apparent lack of preparation, judging from the length of her declamation, while her vocal energy also was pronounced weak.

Philip Colbert's declamation on Lincoln was in part as follows:

"An institution is but the lengthened shadow of a single man." Thus spoke Emerson, and well may we apply it here. The man? Abraham Lincoln. The lengthened shadow? Our union as it stands today. "My paramount object is to save the union," were the words of Lincoln in a letter to Horace Greeley; and who can doubt but that the fulfillment of Lincoln's object is the destroying of sectionalism as it existed in the fifties, and the forming of a deeper national consciousness.

#### What Made Lincoln Great?

We all know that Lincoln was born poor. We all know of his scant education and backwoods life. We have all heard of his well earned greatness in the Black Hawk wars, in the debates with Douglas, in his presidential campaign, and in his masterful guidance of the ship of state through dangerous waters. We are familiar with his immortal fame gained in literature by his Gettysburg address. But, in viewing these external things do we ever stop to think what made Lincoln great? What divine plan was wrapped up in the man?

How mysterious it is that the great God should choose a man from the ranks of the poor and illiterate for a nation's leader. There were men such as Sumner, men of wealth and influence whose presidential hopes were bright, while Lincoln was a poor man, unknown and almost unheard of. Most beautifully has it been written:

#### Held High Ideals.

"The union was already sensing the tiny clouds of that storm that in the fifties had overspread the sky, when over the cabin of a Kentucky squatter the stor of hope hung gleaming. It was then that the Almighty stretched forth his hand and touched the cradle of a new-born baby and thus commanded the angel of life, 'Take thou this little child and rear him for Me; make him great. Plant his pathway with thorns and sharp stones until the slave can trace his footprints of crimson.'

"Load his little back with burdens, stretch upon him the rack of ridicule,

### With Advancing Age

Comes the frequent need of consulting an Optician.

give him the cup of disappointment and loneliness to drink until he is sensitive to sorrow and suffering, mar his face more than any man of his generation, and when he is ready, bring him to Me and we will free this people who cry unto Me day and night."

What made Lincoln great. His ideals, his devotion to his ideals, his belief in fundamental principles and his love.

What we may say about any man's ideals can only be crude and secondary to what that man himself has said. Why, then, should we attempt to coin any phrase ourselves about Lincoln's ideals, when Lincoln himself has left us these words, coined from his own soul, and stamped with the love of a great agonized heart.

#### That Immortal Speech.

"Fourscore and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal. Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war.

"The world will little note, nor long remember what we say here, but it can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us, that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion; that we here highly resolve that these dead shall not have died in vain; that this nation, under God, shall have a new birth of freedom, and that government of the people, by the people, for the people, shall not perish from the earth."

Lincoln threw his whole soul into these matchless words, trying to convey to the minds of the people whom he loved the worth of democracy for which no sacrifice is too great. Although the Gettysburg address is a priceless gem of literature, still it must have fallen far short of the mark which its author, from the depths of an overflowing heart, wished to strike home.

#### Was True Americanism.

The declamation by Miss Mary Lewis on the life of Washington, began as follows:

"Who can listen to the story of George Washington without a thrill of veneration and esteem? This is a story old, yet ever new. Throughout the life of the American nation Washington has stood as a central figure, strong in his wisdom, sweet in his piety, majestic in his nobility, a great leader, and a great hero. It has been said that Caesar was merciful, Scipio was continent, Hannibal patient, but it was reserved to Washington to blend these virtues all in one. We cannot say that he is perfect, for no man is perfect. Yet no man save Lincoln has so fully possessed those qualities which go to make up an element of true Americanism as Washington did."

No Sick Headache, Bilious Stomach, Coated Tongue or Constipated Bowels by Morning.

Get a 10-cent box now.

Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and bad colds—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels, or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

The doctors say that a blow on the head or a sudden shock often transforms a man of gloomy and foreboding cast of mind into an active and alert citizen. Now is the time to get up clubs in Louisiana.—Louisiana Press-Journal.

lonial costume party last night in the library of the Normal. The rooms were handsomely decorated with a wealth of evergreens and tiny flags. The luncheon tables were similarly decorated, each being centered with a blooming plant, surrounded with miniature flags. Each of the company wore a costume of the colonial day and the amusements of the night were taken from the ones popular at that period. The affair opened with a grand march, led by the class president, Orlo Quinn, and Miss Althea Meyers. Several minuet dances followed, and singing by a quartet composed of Wade Henderson, Ray McPherron, William Arthur and Edgar Hull. Then the entire company was divided into eight groups and an old-fashioned charade given by each group. During the intermission punch was served and later a supper was served from small tables. About one hundred were entertained.

There is a reward of \$100 to be placed to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. ## ALLIES PREPARE TO RETALIATE

Joint Note to Announce Reprisals Against German Naval Policy.

## COTTON MAY BE CONTRABAND

Dutch and Scandinavian Sailors Reluctant to Put to Sea and Traffic Between Sweden and England Is Discontinued—British Craft Missing.

## WAR SUMMARY

Thirteen men of the American steamer Evelyn, sunk by a mine off Borkum Island, are unaccounted for. The others, except one dying from exposure, have been picked up by a Dutch ship.

Germany and Austria agree that there has been a severe defeat of the Russians in East Prussia. The Russian Tenth army has been driven back many miles and one army corps numbering 40,000 has been badly cut up. The Germans claim to have taken 100,000 prisoners.

Teutonic allies, since the end of January, according to official reports from Berlin and Vienna, have captured 140,800 men, including seventy-one officers. Among these are seven generals.

A Zeppelin dirigible has bombarded Calais, dropping ten bombs, which killed five people.

Scandinavian and Dutch sailors are reported reluctant to sail, fearing mines and submarines. A Copenhagen dispatch reports traffic between Sweden and England discontinued.

London, Feb. 23.—The submarine, by means of which Germany has declared it will blockade the British Isles, daily becomes a factor of more and more importance in the great war of Europe with respect to its influence on the policies of the nations engaged in connection with the contraband question so vital to neutral states.

Replying to a question in the house of commons, Premier Asquith said:

"The allied governments are considering what action it would be proper to take in the way of reprisals against the German policy of attacking and destroying British, allied and neutral merchant vessels, without warning and without an attempt being made to save the lives of civilians and innocent crews."

"Pending a decision which I hope will very soon be announced, I cannot make a statement regarding the nature or scope of the measures to be taken."

"As to the form in which the decisions will be published," Premier Asquith said, "there certainly will be a note from Great Britain, and I hope there will be a joint one."

The British government may reconsider its ruling permitting the entrance of cotton into Germany. This was intimated in the house of commons by Harold J. Tennant, under secretary of war. Mr. Tennant stated that when the decision was reached not to make cotton contraband the government believed that the requirements of Germany were already satisfied, but he added, "this attitude must be revised from time to time."

## Three British Craft Missing.

The day passed without news of any additional merchant ship, belligerent or neutral, having fallen a victim to a German submarine, but three small British craft are missing and fears are expressed as to their fate.

Amsterdam reports that two German submarines are overdue at their base, Cuxhaven, but whether they have been sunk is not known.

Traffic in the North sea remains somewhat disorganized and Dutch and Scandinavian sailors are showing a reluctance to go to sea owing to the menace of both submarines and mines. Traffic between England and Sweden has been discontinued for the time being.

## WAIT FOR BETTER WEATHER

Climatic Conditions Make It Impossible for Forces to Take Offensive.

London, Feb. 23.—The military correspondent of the London Times in a recent survey of conditions said there is little likelihood of any important advance movement by either side on the western front for a long time to come. Under the present condition of weather and ground, with artillery which knows the range of every landmark exactly, he argues that a successful offensive is next to impossible.

"The district in which the British army is operating is practically a swamp," asserts the observer. "Water stands on the stiff, slippery and holding clay, rendering the movement of infantry across country impossible. The deep trenches are filled with water and the necessity of standing in this has cost us many casualties."

## Morgan Sells Rare Art.

New York, Feb. 23.—J. Pierpont Morgan has made a second great sale from his art collection in the Metropolitan Museum of Art. The Duveen brothers announced that they had purchased the celebrated room of Pragonard paintings, probably the most famous of the Morgan paintings, with the possible exception of the Colonna Madonna by Raphael. The collection is worth \$1,000,000 or more.

Bordeaux, Feb. 23.—A bulletin is issued after the amputation of Sarah Bernhardt's right leg said that the operation was endured under the best conditions and that her condition was as good as possible.

The operation took place in a hospital at Rue d'Ares. Up to the moment when she became unconscious from the anaesthetic Mme Bernhardt appeared cheerful and courageous.

Telegrams of sympathy from all parts of the world continue to arrive. An enormous letter mail arrived at Bordeaux from her English and French friends.

## DAYTON IN OWN BEHALF

Accused Jurist Says His Official Acts Are Misrepresented.

Washington, Feb. 22.—Federal Judge Alston G. Dayton of West Virginia testified before the house judiciary sub-committee investigating charges against him. He declared he had been "repeatedly misrepresented."

The case of the Hichman Coal and Coke company against officers and organizers of the United Mine Workers of America he reviewed in detail. A restraining order, which finally developed into a permanent injunction restraining the union officers from attempting to organize the employees of the Hichman company, was one of the factors in the charges against him.

Judge Dayton declared he had based his decision in the case on the fact that the company had a contract with each of its men before they were employed, in which they agreed not to join a labor union.

"I never spent a year of such hard labor and close study as I did in the work on that case," continued the judge. "I worked to such an extent that for the first time in my life I dropped in the street in a dead faint by reason of the mental strain involved in it."

## Friend of Cleveland Dies.

St. Paul, Feb. 23.—Michael Doran, 57 years old, an intimate friend of Grover Cleveland and long known as a Democratic politician, died here.

## WILSON NOMINATES TRADE COMMISSION

Washington, Feb. 23.—President Wilson nominated the following members of the new federal trade commission:

Joseph E. Davies, Madison, Wis.; Edward N. Hurley of Chicago, William J. Harris of Cedarhurst, Ga.; William Parry of Seattle, Wash., and George Rublee of Cornish, N. H.

Politically the commission has three Democrats, one Progressive Republican and one Progressive. Parry is described by the White House as a Progressive Republican and Rublee as a Progressive.

Mr. Davies is commissioner of the bureau of corporations which is merged with the commission under the new law. Mr. Hurley is a business man and trade expert with extended knowledge of Latin-American conditions. Mr. Harris is director of the census. Mr. Parry is a lawyer and business man. Mr. Rublee is a lawyer who was consulted frequently by leaders in congress when the trade commission bill was being framed.

The president is hopeful the commission will be confirmed during the present session of congress and organized at once.

## MARYVILLE GETS ORATORY AWARDS

LOCAL HIGH SCHOOL DEFEATS SKIDMORE AND HOPKINS.

## JUDGES UNANIMOUS FOR GIRL WINNER

All Favored Mary Lewis on Washington Declaration—Get Medals and Loving Cups.

The Maryville high school took all honors in the annual Washington-Lincoln oratorical contest, which was held in the Washington school building last night. Philip Colbert was the only boy contestant with a declamation on the life of Lincoln, so naturally secured that loving cup for his school, but the grading of the judges showed that even had he a dozen contestants they would have had to "go some" to get around his percentage.

Miss Mary Lewis won out over two competitors in the declamation on the life of Washington. In fact, the three judges unanimously favored Miss Lewis, as the grading showed. The addresses by Miss Ica Applegate of Hopkins and by Miss Mary Barrett of Skidmore were good, however, and received the hearty applause and commendation of the entire audience and the judges.

### May Hurt Next Contest.

While it is commendable that the local high school won both prizes in the oratorical contest, many of those most interested in the movement fear that this fact alone will deter the success of next year's contest, in that other county high schools will take it for granted that the Maryville school will win anyway, therefore not enter any contestants.

The judges of the declamations were Prof. Harry A. Miller of the Normal faculty, the Rev. John H. Hubbard and Mrs. R. S. Branigan, all of Maryville. The announcement of the winners was made after the last declamation by Prof. Miller.

Each gave the Washington loving cup to Miss Lewis; in fact, Mr. Hubbard and Prof. Miller were but one-half point at variance in grading. The judges were selected a few days ago by a representative of the Grand Army of the Republic, of the Women's Relief Corps and by Bert Cooper, county school superintendent.

### Will Get Medals and Cups.

Each winner will receive a silver medal for personal possession, while the Maryville high school will receive the two loving cups.

The oratorical contest was interspersed with a musical program.

It opened with the entire audience singing "America." Invocation was given by the Rev. J. H. Hubbard, after which a male high school quartet, composed of Verne Pickens, Donald Roberts, Claude Glass and Jesse Strader, sang "The Backslidin' Brudder."

The address on Lincoln was then given by Philip Colbert.

The girls' chorus of the high school then sang "My Own United States."

The three addresses on Washington were then given by Miss Ica Applegate, Miss Mary Lewis and Miss Mary Barrett in order.

"Questions" was then sung by the Boys' Glee club of the school, after which the announcement of the winners was made.

### Colbert Oration Best Ever.

"The oration on Lincoln by Philip Colbert, from the point of diction, composition and arrangement, was the best high school oration I have ever heard," said Prof. Miller, one of the judges, and himself an authority on this kind of work. "I graded him perfectly on thoroughness of preparation, diction and composition, and all in all I believe his declamation was the best delivered at the high school last night."

The orators were graded as follows, according to Prof. Miller. Each of these qualities constituted ten points: Thoroughness of preparation, composition, diction, memory, modulation, gesture, pronunciation, enunciation.

## WHEN FERRIES WERE USED

Old County Records Recall When Oxen Crossed the Unbridged Nodaway.

The granting of a contract Saturday for the erection of a new steel bridge over the Nodaway river at Clearmont recalls the time when ferries alone offered a means of crossing that stream. It in turn brings to the mind of the older settler when oxen were seen as often as the horse, and when automobiles were not even dreamed of.

In looking over the records of the Nodaway county court in 1868, County Clerk Fred Yeomans saw an interesting item yesterday in which the court granted a license to John S. Swoop to run a ferry on the Nodaway river near Graham, the license being for a period of three months, from March 3 to June 3, in 1868.

The charges were 10 cents for footmen, 50 cents for a wagon and team of four horses or four yoke of oxen, 35 cents for a wagon and a team of horses or oxen.

Joseph Jackson, Sr., president of the First National bank of this city, was county clerk at the time and Andrew Royal was president of the court.

## CLASS STUDIES ELECTRICITY.

Normal Students in Physics View Local Light Plant to Get Practical Knowledge.

The college physics class of the Normal school, taught by M. W. The class consists of Silas Skelton, Ray McPherson, Orlo Quinn and W. A. Powers.

## ATTEND MAIL CARRIERS' MEET.

District Officers Went to St. Joseph—Maryville Man is Convention Delegate.

The semi-annual meeting of the rural mail carriers of the Fourth congressional district of Missouri, was held yesterday in St. Joseph. No one was in attendance from Maryville, but S. S. Browne of Hopkins, and O. G. Null of Pickering, were present from Nodaway county.

The carriers will hold their next meeting on Labor Day at Savannah. James S. Muntz of Maryville was selected as one of the delegates to the state convention to be held at Marshall July 2 and 3. S. S. Browne of Hopkins is president and O. G. Null of Pickering, is secretary of the association.

## OBSERVE WASHINGTON DAY.

Normal Y. M. and Y. W. Associations Hold Joint Assembly Session This Morning.

The Y. M. C. A. and the Y. W. C. A. of the State Normal school met in joint session at the regular assembly this morning. The subject of the meeting was George Washington. Besides the regular numbers on the program a round table discussion was held in which many participated. Prof. Harry Miller made a particularly interesting talk. The program follows:

Leader—Miss Ivah Barnes.  
Subject—"George Washington."  
Song—Both associations.  
Scripture reading.  
Prayer—William Utter.  
Vocal solo—Miss Blanche Criswell.  
"Washington, the Man of Character"—Miss Mahala Saville.  
"Washington, the Man of Peace"—Miss Barbara Millan.  
"Reverential Spirit of Washington"—Harvey Watson.  
Quartet from Y. M. C. A.

Frank Flynn of Kansas City spent the week end with friends in Maryville, returning to his home yesterday.

## STORM DAMAGES TELEPHONE LINES

WIND AND SNOW BREAK WIRES AND DOWN POLES.

## SERVICE VIRTUALLY CUT OFF IN COUNTY

Mutual Has Communication Only With Arkoe, While Hanamo Suffers Biggest Loss for Year.

One of the biggest losses through storm which either the Hanamo or the Mutual telephone companies have suffered within the last two years, is reported by officials of both concerns this morning, as a result of last night's storm. The wind, sleet and snow combined, broke scores of wires, dragged the poles from their anchorage and in general, played havoc with telephone communication over all of Nodaway county.

W. O. Garrett, of the Mutual telephone company, said this morning, that no towns within the county but Arkoe, could be reached today over the Mutual lines, and that many of the individual and party farmer lines are down or out of commission. One of the main lead lines northwest of Maryville, is down on the ground for a full half-mile, Mr. Garrett said, while in numerous places the force of linemen, sent out this morning report much damage.

### Mutual Loss is \$200.

"The storm last night did at least \$200 damage to the Mutual lines," said Mr. Garrett this morning. "It did more damage by far than any other storm this winter, or for that matter, for at least two years past. It will probably be several days before even all the lead lines to the various towns of the county will be in repair, although some may be in commission by tomorrow night."

"The linemen have been instructed to first repair the lines nearest to Maryville and then work out on the various main lines, so that some of the towns may be put on the service earlier than others in this way."

The telegraph wires into Maryville were damaged but little, if any, by last night's storm, according to W. J. Staples, local manager of the Western Union Telegraph company.

### Hanamo Service Crippled.

"We have not had much trouble from the storm last night in Maryville, but the toll lines have been badly damaged by the snow, sleet and wind," said Harry Todd, manager of the Hanamo Telephone company, this afternoon. "We had but three toll lines working this morning, they being to St. Joseph, Barnard and Stanberry, but the other lines are being rapidly repaired."

"We expect to have all town lines in working order by tonight, and probably all toll lines in usual condition by tomorrow night."

Mr. Todd said there were but a dozen or so complaints made from city subscribers, but that many of the country toll lines were damaged by wires being broken or the poles being dragged down by the weight of the snow and resulting wind.

Between Maryville and Carr's corner, five miles south of town, on the line to Arkoe, Mr. Todd said the linemen reported eight poles down, while other telephone lines have damaged the Hanamo wires to some extent by poles falling across them.

## NORMAL FUND CUT \$17,820 BY HOUSE

REVISED APPROPRIATION BILL INTRODUCED TODAY MAKES CUT.

## URGE \$10,000 MORE FOR SALARY THOUGH

Maryville State School Fares Better Than Others—Now Up to the Two Branches.

A further cut of \$17,820 in the appropriation sought by the Maryville State Normal school for the biennial period of 1915-1916 has been recommended by the house appropriation committee of the state legislature. The appropriation bill is to be introduced in the house today by Representative Floyd Tuggles, chairman.

The original appropriation sought by the board of regents and adopted by the junketing committee was \$170,520. It later was reduced by \$500, this being taken from the campus improvement fund. Later this same fund was reduced by \$1,000, making the total appropriation \$169,320. The appropriation of \$141,500, now recommended, is greater than that granted by the legislature two years ago by \$23,458.59.

The big cut this time is believed to have been made in the salary fund. The salary fund two years ago was \$90,000, while the house committee this time recommends an appropriation of \$10,000 more for this purpose. This would make the salary fund this time \$100,000 if it passes through the house and senate unchanged. The board of regents asked for \$118,820.

But the Maryville Normal has so far fared well, when it is considered that virtually all other state institutions, particularly the state university, was denied most appropriations for improvements or extensions. Whether the Normal appropriation will be further reduced in the house today or in the senate within the next few days is hard to foretell.

## MOTHER SUPERIOR RESTS WELL.

Condition of Injured Woman Fairly Good Today.

The condition of the Reverend Mother Augustine, Mother Superior of St. Francis hospital, who was seriously injured yesterday when her right arm was crushed in the mangle machine of the hospital laundry, was fairly good today. She rallied from the operation for the amputation of her arm and spent a restful night, and is as well today as the attending physicians could hope for.

## HOLDS BEAR RITES.

Daughter of Mr. and Mrs. William Cheney of Hopkins Dead.

The funeral services for Mrs. Charles Bear, living southwest of Arkoe, who died Sunday at the home of her parents, Mr. and Mrs. William Cheney of Hopkins, were held yesterday afternoon at the Christian church of Hopkins. Mrs. Bear had been ill for several weeks and was brought to her father's home Friday. She is survived by her husband and one child.

## RUSS TO ATTACK TURK CITY?

Sofia Reports Slays Concentrate at Odessa for Bombardment of Constantinople.

By American Press.

Copenhagen, Feb. 23.—The Deutsche Tages Zeitung publishes an official dispatch from Sofia, which says the Russians are concentrating large forces at Odessa, in readiness to ship them to Midia, on the Black sea, sixty miles northwest of Constantinople, for an attack on that Turkish capital.

With the allies also making a determined attack on the Dardanelle forts at Constantinople with much success, it is believed the czar now plans to throw his forces to their aid and thereby render Turkey virtually helpless in the war.

## SAYS MOTIVE CHANGES WILL

Evangelist Will Preach Tonight from Topic "Is Conscience a Guide."

At the close of the preaching services last night at the First Christian church, a baptismal service was held and a number of converts received into membership. The Rev. Charles A. Finch, who is conducting the services, will preach tonight from the subject, "Is Conscience a Guide." Harry O. Fritz, who has charge of the musical part of the service, will give special numbers.

The evangelist spoke last night from the text, "A Change of Heart," saying in part:

### What Is the Heart?

"Every scripture that refers to the heart falls under one of the four classes namely; the intellect, affections, will and conscience. That is to say, the heart is said to 'reason,' to 'love,' to 'determine' or 'will,' and to 'condemn.' Therefore, the heart that is spoken of in the New Testament includes the entire inner being of man as Paul says, 'Though the outward man perish, the inner man is renewed day by day.' The heart then is everything of man except flesh and blood."

The intellect, the affections, the will and the conscience. If now, these four departments of the soul are against Christ and righteousness, and wholly given over to sin, a change of heart would be the making over of these faculties of the mind and soul so that they are devoted to Christ.

"We can believe only upon evidence, 'either produce it or give up.' So faith in Christ is produced the same way."

### Spirit Changed by Kindness.

"If I talk to a man in a spirit of anger, he will reply in the same manner, but when I try to be courteous, kind and considerate, swift to help with my money and my deeds, a different atmosphere is created. When we see in any object loveliness our affections go out toward it."

### Motives Change Will.

"A man leads a pure and virtuous life to the alter, vows to care for her, love and protect her while life shall last. He establishes a happy home, but in a few years strong drink ruins that home. Everything is gone. The wife and children are in rags. His intellect is alright for he still is aware that he has outraged the home and broken every promise he ever made. The affections do not need to be changed for in moments of sobriety he loves his wife and children but his will is so weak, the demon of drink is his master. What will change him? The same motives that changed the prodigal when he came to himself. The motive of the father's great love and his willingness to pardon. The gospel cure is greater than the Keeley cure. As long as Calvary's Hill shines thru the centuries and men hear, 'Father forgive them, they know not what they do,' a motive big enough to win men from sin and reclaim them from ruin is at hand."

### Right Doing Changes Conscience.

"Conscience is that inward monitor that chides us when we do wrong and cheers us when we do right. If you believe in Christ, your intellect is alright; if you love Him, your affections are what they should be; if you will to serve Him, that faculty is what He would have, and if you have obeyed Him your conscience is right and your heart doesn't need changing. Whatever is lacking should be changed. If your conscience tells you that you have not obeyed God, you will get a good conscience by obedience."

Mr. and Mrs. Ad Davis of Clearmont announce the birth of their daughter Saturday.

## TO ARRANGE FOR FALL CORN SHOW

OFFICERS WILL DISCUSS NEXT CONTEST FOR YOUTHS.

## WILL BE HELD AT NORMAL IN OCTOBER

Nodaway County Agricultural and Domestic Science Association Plans Seventh Annual Exhibit.

A special meeting of the officers and executive committee of the Nodaway County Agricultural and Domestic Science association will be held in the office of Bert Cooper, manager, at the court house at 9 o'clock Friday night, to arrange further details for the seventh annual show of the association. It will be held in October at the Normal, but little further is yet definitely decided except the list of prizes to be awarded this year.

W. M. Oakerson of Jefferson City, formerly manager of the association, will attend to aid in the promotion of the county contest for youths. It is hoped at this time that the exact time for holding the contest and exhibition may be decided upon, as well as the completion of other arrangements.

### May Hold It Separate.

Whether the show this year will be held separate and distinct, and at a different time from any other attraction is not known, but probably will be after the meeting Friday night, Manager Cooper said this morning.

It has been suggested that it be held in connection with the farm and home course of the Normal, or with the annual fall meeting of teachers of Nodaway county. But the consensus of opinion was last fall that hereafter the youths' contest should be held separate.

Last year it was held in connection with homecoming week. If the show this year is held in conjunction with the Normal short course it would either have to be held later than in October or else the Normal agriculture course would have to be held earlier than it was last year, when it was the first week in December.

### Send Out Entry Blanks Soon.

At any rate, according to Manager Cooper, it will not be held in connection with the Nodaway county fair, which is to be held the latter part of the summer.

Entry blanks for competing in any of the contests in agriculture, horticulture or domestic science at the next annual show will be sent out over the county within a few days, Mr. Cooper said, so that those desiring to compete can enlist early.

The officers of the association now are: Bert Cooper, manager; E. E. Williams, secretary and treasurer. The executive committee consists of Miss Hettie Anthony, Prof. John E. Cameron, James B. Robinson, G. L. Wilfley, Joseph Jackson, Jr., Paul Sisson, W. R. Jackson and the two officers.

### Oklahoma Visitors Arrive.

Mr. and Mrs. A. C. Vickery and son of Hitchcock, Okla., arrived in Arkoe yesterday to visit Mr. Vickery's parents, Mr. and Mrs. N. C. Vickery. They will later visit in Maryville with Mrs. Vickery's father, W. H. Swinford. The Vickerys have recently moved from Watonga, Okla., to Hitchcock, where Mr. Vickery has gone into the mercantile business.

### LEGISLATURE DOES LITTLE

State Assembly Passes But 4 Appropriation Bills, and Only 19 Days Remain.

With only nineteen working days to go the Missouri legislature has passed and the governor has signed four appropriation bills and nothing else. That is the total of accomplishments of the present session.

More than that, most of the big bills are so far down on the calendar that their chance of ever becoming laws is slim. The status of some of the big bills follow:

Workmen's compensation—up for engrossment in the senate; not out of the committee in the house.

Insurance—Fire marshal bill, practically killed in the house; fire rating bill up for engrossment in both house and senate, but with such a fight on the measure that even the backers admit passage is doubtful.

Election bill—Reported adversely by house committee; still in committee in senate.

State purchasing board bill—Killed by house and senate committees. Claimed by the governor the measure would save the state \$100,000 a year.

Prison farm bill—Big feature of prison program on calendar without a recommendation in senate; reported adversely by house committee.

Minimum wage commission bill—Still in committee in senate and generally recognized as standing no chance at passage.

Code revision—Civil code reform bill engrossed in the house, up for engrossment in the senate. Other code bills out of committee with favorable report. A possible chance of a few of these bills passing, but only a chance. The dry bills—One dry bill engrossed in the house; all the rest merely reported favorably by house committees. Not a bill out of committee in the senate.

#### To Fight Over Four Bills.

From the present indication, the remainder of the legislative session will develop largely into a fight over four measures—the dry bills, the railroad rate increase, the prison problem and the insurance rating bill.

The rates increase and the prison problem are standing out above the other bills; in fact, the drys, with an acknowledged majority, are in a hole where they may not get a bill by.

Never has a session seen so much debate and discussion on the floor of the house and senate. The railroad rate bill will not be up for a vote for a week and the work now is being done at home—trying to bring influence to bear on members to switch them to the bill.

The drys will make a fight in the houses Tuesday when the early closing bill comes up for engrossment. It was slated to be voted upon today, but on account of the many members absent it went over until Tuesday. The drys are in good shape in the house, but their bills are now here in the senate. The coming week will see the drys centering their fire on the senate in an effort to get action there.—Kansas City Star.

Frank Dinsmore and Grover Dinsmore of the Gaynor neighborhood were transacting business in Maryville yesterday.

C. W. Yehle, president of the Alderman-Yehle dry goods company, left Sunday night for a ten-day trip to the St. Louis and Chicago markets.

#### Returns to Fort Wayne.

Mrs. Edgar Schilder of Fort Wayne, Ind., who has been visiting several weeks with her parents, Mr. and Mrs. Frank Barmann, left for her home yesterday. She was accompanied as far as Kansas City by her bother, Earl Barmann.

Club ladies, teachers, parents and all lovers of art, literature and travel, examine the Burton Holmes Travelogue now being introduced here. This work contains the finest collection of pictures and the most interesting and profitable description of the world ever published.—Adv.

### MARYVILLE GETS ORATORY AWARDS

(Continued from page 1.—tion, vocal energy, personal appearance.

#### Where They Fell Down.

The three girl contestants were graded as follows by Prof. Miller:

Miss Lewis 80, Miss Applegate 73, Miss Barrett 71. Mr. Hubbard, another judge, gave Miss Lewis 79½ points, while Mrs. Braniger, the other judge, gave her 84 points. Miss Lewis' main weakness, according to Prof. Miller, was in pronunciation and gesture.

Miss Barrett fell principally on the apparent lack of preparation, judging from the length of her declamation, while her vocal energy also was pronounced weak.

Philip Colbert's declamation on Lincoln was in part as follows:

"An institution is but the lengthened shadow of a single man." Thus spoke Emerson, and well may we apply it here. The man? Abraham Lincoln. The lengthened shadow? Our union as it stands today. "My paramount object is to save the union," were the words of Lincoln in a letter to Horace Greeley; and who can doubt but that the fulfillment of Lincoln's object is the destroying of sectionalism as it existed in the fifties, and the forming of a deeper national consciousness.

#### What Made Lincoln Great?

We all know that Lincoln was born poor. We all know of his scant education and backwoods life. We have all heard of his well earned greatness in the Black Hawk wars, in the debates with Douglas, in his presidential campaign, and in his masterful guidance of the ship of state through dangerous waters. We are familiar with his immortal fame gained in literature by his Gettysburg address. But, in viewing these external things do we ever stop to think what made Lincoln great? What divine plan was wrapped up in the man?

How mysterious it is that the great God should choose a man from the ranks of the poor and illiterate for a nation's leader. There were men such as Sumner, men of wealth and influence whose presidential hopes were bright, while Lincoln was a poor man, unknown and almost unheard of. Most beautifully has it been written:

#### Held High Ideals.

"The union was already sensing the tiny clouds of that storm that in the fifties had overspread the sky, when over the cabin of a Kentucky squatter the stor of hope hung gleaming. It was then that the Almighty stretched forth his hand and touched the cradle of a new-born baby and thus commanded the angel of life, 'Take thou this little child and rear him for Me; make him great. Plant his pathway with thorns and sharp stones until the slave can trace his footprints of crimson.

"Load his little back with burdens, stretch upon him the rack of ridicule,

### With Advancing Age

Comes the frequent need of consulting an Optician.

Most elderly people find their eyes changing from year to year.

This is natural, and calls for a more frequent change of lenses than is necessary in earlier years.

If you need Optical assistance at all, you need My Kind.

give him the cup of disappointment and loneliness to drink until he is sensitive to sorrow and suffering, mar his face more than any man of his generation, and when he is ready, bring him to Me and we will free this people who cry unto Me day and night."

What made Lincoln great. His ideals, his devotion to his ideals, his belief in fundamental principles and his love.

What we may say about any man's ideals can only be crude and secondary to what that man himself has said. Why, then, should we attempt to coin any phrase ourselves about Lincoln's ideals, when Lincoln himself has left us these words, coined from his own soul, and stamped with the love of a great agonized heart.

#### That Immortal Speech.

"Fourscore and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal. Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war.

"The world will little note, nor long remember what we say here, but it can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us, that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion; that we here highly resolve that these dead shall not have died in vain; that this nation, under God, shall have a new birth of freedom, and that government of the people, by the people, for the people, shall not perish from the earth."

Lincoln threw his whole soul into these matchless words, trying to convey to the minds of the people whom he loved the worth of democracy for which no sacrifice is too great. Although the Gettysburg address is a priceless gem of literature, still it must have fallen far short of the mark which its author, from the depths of an overflowing heart, wished to strike home.

#### Was True Americanism.

The declamation by Miss Mary Lewis on the life of Washington, began as follows:

"Who can listen to the story of George Washington without a thrill of veneration and esteem? This is a story old, yet ever new. Throughout the life of the American nation Washington has stood as a central figure, strong in his wisdom, sweet in his piety, majestic in his nobility, a great leader, and a great hero. It has been said that Caesar was merciful, Scipio was continent, Hannibal patient, but it was reserved to Washington to blend these virtues all in one. We cannot say that he is perfect, for no man is perfect. Yet no man save Lincoln has so fully possessed those qualities which go to make up an element of true Americanism as Washington did."

#### 10-CENT "CASCARETS"

STRAIGHTEN YOU UP

No Sick Headache, Bileous Stomach, Coated Tongue or Constipated Bowels by Morning.

Get a 10-cent box now.

Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and bad colds—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels, or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

The doctors say that a blow on the head or a sudden shock often transforms a man of gloomy and foreboding cast of mind into an active and alert citizen. Now is the time to get up clubs in Louisiana.—Louisiana Press-Journal.

## The Lenox Torrid Zone Steel Furnace

Has been on the market one-fourth a century and we have installed them for twenty years. This is a long time to stick to one make of furnace, and, of course, there is a reason for so doing. Experience has proven **Torrid Zone Furnace** to be far superior in durability, economy of fuel, and efficiency in delivering warm air to the rooms desired.

It consumes less fuel, produces more heat, has the greatest amount of radiation and delivers more heat to the hot air circulating chamber than others in the same length of time. Take note of the **Torrid Zone**

**Construction.**

The **Furnace Shell** one piece of steel, the top, bottom and feed door frame is of steel and riveted, gas tight, wrought steel rivets driven home with pneumatic riveters.

The **Radiator** is hung to the smoke outlet on a **WEDGED JOINT**, the more the heat expands it the tighter the joint becomes. The **DIVIDING FLUE** extends to within eight inches of the bottom causing the heat to travel three times the length of the radiator before passing into the smoke flue.

These are a few of the many reasons of the **Torrid Zone's** success as a warm air heating plant. Bring in your plans and let us furnish estimates on heating the home.

**Mr. and Mrs. Conrad Here.**

Mr. and Mrs. Byron Conrad of Bloomington, Ill., arrived in Maryville Saturday night to spend several days visiting at the home of Dr. and Mrs. J. H. Todd. Mrs. Conrad was formerly Miss Ruth Peery, the daughter of Mr. and Mrs. Ed L. Peery, who were residents of Maryville for some time and are now living at Santa Barbara, Cal. The Conrads are accompanied by their two children, Madora and George Edward. In honor of their guests, Dr. and Mrs. Todd gave a dinner Sunday noon, at which additional guests were Mr. and Mrs. W. C. Frank and Mr. and Mrs. Dale Bellows and daughter. Mr. and Mrs. Conrad are both engaged as singing evangelists in the Christian church. They are en route to California to visit until June with her parents. They will leave Maryville tomorrow morning.

**Club Members Entertained.**

The Mazingo Valley H. K. G. club met Friday afternoon at the home of Mrs. Joseph Weaver, near Pickering. A business session was followed by an hour with crocheting and then a delicious supper was served. Musical numbers were given by Mrs. Weaver and Miss Addie Killam. The members present were Mrs. A. H. Leach, Mrs. William Shellman, Mrs. Lewis Pistole, Miss Addie Killam and Mrs. Weaver. The next meeting of the club will be on the night of February 25, at the home of Mr. and Mrs. William Shellman, when the members will entertain their husbands and families.

**Seniors Entertain.**

The senior class of the State Normal school entertained the members of the faculty and junior class with a co-

lonial costume party last night in the library of the Normal. The rooms were handsomely decorated with a wealth of evergreens and tiny flags. The luncheon tables were similarly decorated, each being centered with a blooming plant, surrounded with miniature flags. Each of the company wore a costume of the colonial day and the amusements of the night were taken from the ones popular at that period. The affair opened with a grand march, led by the class president, Orlo Quinn, and Miss Althea Meyers. Several minuet dances followed, and singing by a quartet com-

posed of Wade Henderson, Ray McPherron, William Arthur and Edgar Hull. Then the entire company was divided into eight groups and an old-fashioned charade given by each group. During the intermission punch was served and later a supper was served from small tables. About one hundred were entertained.

## ALLIES PREPARE TO RETALIATE

Joint Note to Announce Reprisals Against German Naval Policy.

## COTTON MAY BE CONTRABAND

Dutch and Scandinavian Sailors Reluctant to Put to Sea and Traffic Between Sweden and England Is Discontinued—British Craft Missing.

## WAR SUMMARY

Thirteen men of the American steamer Evelyn, sunk by a mine off Borkum Island, are unaccounted for. The others, except one dying from exposure, have been picked up by a Dutch ship.

Germany and Austria agree that there has been a severe defeat of the Russians in East Prussia. The Russian Tenth army has been driven back many miles and one army corps numbering 40,000 has been badly cut up. The Germans claim to have taken 100,000 prisoners.

Teutonic allies, since the end of January, according to official reports from Berlin and Vienna, have captured 140,800 men, including seventy-one officers. Among these are seven generals.

A Zeppelin dirigible has bombarded Calais, dropping ten bombs, which killed five people.

Swedish and Dutch sailors are reported reluctant to sail, fearing mines and submarines. A Copenhagen dispatch reports traffic between Sweden and England discontinued.

London, Feb. 23.—The submarine, by means of which Germany has declared it will blockade the British Isles, daily becomes a factor of more and more importance in the great war of Europe with respect to its influence on the policies of the nations engaged in connection with the contraband question so vital to neutral states.

Replying to a question in the house of commons, Premier Asquith said:

"The allied governments are considering what action it would be proper to take in the way of reprisals against the German policy of attacking and destroying British, allied and neutral merchant vessels, without warning and without an attempt being made to save the lives of civilians and innocent crews."

"Pending a decision which I hope will very soon be announced, I cannot make a statement regarding the nature or scope of the measures to be taken."

"As to the form in which the decisions will be published," Premier Asquith said, "there certainly will be a note from Great Britain, and I hope there will be a joint one."

The British government may reconsider its ruling permitting the entrance of cotton into Germany. This was intimated in the house of commons by Harold J. Tennant, under secretary of war. Mr. Tennant stated that when the decision was reached not to make cotton contraband the government believed that the requirements of Germany were already satisfied, but, he added, "this attitude must be revised from time to time."

## Three British Craft Missing.

The day passed without news of any additional merchant ship, belligerent or neutral, having fallen a victim to a German submarine, but three small British craft are missing and fears are expressed as to their fate.

Amsterdam reports that two German submarines are overdue at their base, Cuxhaven, but whether they have been sunk is not known.

Traffic in the North sea remains somewhat disorganized and Dutch and Scandinavian sailors are showing a reluctance to go to sea owing to the menace of both submarines and mines. Traffic between England and Sweden has been discontinued for the time being.

## WAIT FOR BETTER WEATHER

Climatic Conditions Make It Impossible for Forces to Take Offensive.

London, Feb. 23.—The military correspondent of the London Times in a recent survey of conditions said there is little likelihood of any important advance movement by either side on the western front for a long time to come. Under the present condition of weather and ground, with artillery which knows the range of every landmark exactly, he argues that a successful offensive is next to impossible.

"The district in which the British army is operating is practically a swamp," asserts the observer. "Water stands on the stiff, slippery and holding clay, rendering the movement of infantry across country impossible. The deep trenches are filled with water and the necessity of standing in this has cost us many casualties."

## Morgan Sells Rare Art.

New York, Feb. 23.—J. Pierpont Morgan has made a second great sale from his art collection in the Metropolitan Museum of Art. The Duveen brothers announced that they had purchased the celebrated room of Pragonard paintings, probably the most famous of the Morgan paintings, with the possible exception of the Colonna Madonna by Raphael. The collection is worth \$1,000,000 or more.

The operation took place in a hospital at Rue d'Ars. Up to the moment when she became unconscious from the anesthetic Mme Bernhardt appeared cheerful and courageous.

Telegrams of sympathy from all parts of the world continue to arrive. An enormous letter mail arrived at Bordeaux from her English and French friends.

## DAYTON IN OWN BEHALF

Accused Jurist Says His Official Acts Are Misrepresented.

Washington, Feb. 23.—Federal Judge Alston G. Dayton of West Virginia testified before the house judiciary sub-committee investigating charges against him. He declared he had been "repeatedly misrepresented."

The case of the Hickman Coal and Coke company against officers and organizers of the United Mine Workers of America he reviewed in detail. A restraining order, which finally developed into a permanent injunction restraining the union officers from attempting to organize the employees of the Hickman company, was one of the factors in the charges against him.

Judge Dayton declared he had based his decision in the case on the fact that the company had a contract with each of its men before they were employed, in which they agreed not to join a labor union.

"I never spent a year of such hard labor and close study as I did in the work on that case," continued the judge. "I worked to such an extent that for the first time in my life I dropped in the street in a dead faint by reason of the mental strain involved in it."

## Friend of Cleveland Dies.

St. Paul, Feb. 23.—Michael Doran, 87 years old, an intimate friend of Grover Cleveland and long known as a Democratic politician, died here.

## WILSON NOMINATES TRADE COMMISSION

Washington, Feb. 23.—President Wilson nominated the following members of the new federal trade commission:

Joseph E. Davies, Madison, Wis.; Edward N. Hurley of Chicago; William J. Harris of Cedarhurst, Ga.; William Parry of Seattle, Wash., and George Rublee of Cornish, N. H.

Politically the commission has three Democrats, one Progressive Republican and one Progressive. Parry is described by the White House as a Progressive Republican and Rublee as a Progressive.

Mr. Davies is commissioner of the bureau of corporations which is merged with the commission under the new law. Mr. Hurley is a business man and trade expert with extended knowledge of Latin-American conditions. Mr. Harris is director of the census. Mr. Parry is a lawyer and business man. Mr. Rublee is a lawyer who was consulted frequently by leaders in congress when the trade commission bill was being framed.

The president is hopeful the commission will be confirmed during the present session of congress and organized at once.
